

Wozu, Inc. Community Support Fund

PURPOSE

To support community grassroots efforts in building healthy community opportunities.

The fund will provide financial assistance for activities that are in support of, or directly related to, the Wozu mission and focus areas:

- Regenerative agriculture
- Youth activities
- Culture, language and history
- Healthy outdoor family activities
- Self-sustaining lifestyles

Activities and events that get people active and back on the land is our primary goal to achieve with this fund in the year 2022.

Some ideas that have been generated were to support the creation of a youth bike club, a harvesting and drying of traditional plants and medicines event, cultural story sharing sessions and supporting Dakota language immersive outdoor activities. These are just a few of the many ideas our community members wish to see happen.

APPLICATION PROCESS

Application: Complete the one-page application detailing the event or activity purpose with estimated total costs and grant request not to exceed \$500. Costs will be paid directly to vendors detailed in the budget proposal.

Post-Event Evaluation: Applicants will be provided an event report template to submit for post-event evaluation and data collection. This information is important in continuing with the community projects. By submitting an application, you agree to complete and return the post-event evaluation or you will no longer be eligible for additional project funding for the remainder of the year.

Completed applications can be emailed to info@wozu.net or call 701-455-3001.
